

SAN DIEGO COMMUNITY COLLEGE DISTRICT

Board of Trustees Policy

Chapter 4—Instructional Services

BP 5151 MILITARY SERVICES EDUCATION

The San Diego Community College District, by its geographic location and proximity to major military installations, has within its boundaries a significant number of military personnel and their families. Due to the significant number of military personnel and their impact upon the economy of San Diego, the Board of Trustees believes it desirable to establish a program to meet the educational needs of such persons.

The Board of Trustees may adopt plans and programs to meet the educational needs of military personnel and their families.

The Board emphasizes that these coordinative programs, with specific educational programs and services, be provided by the District's Colleges and Continuing Education.
