Loma Linda University Health Care

If you wish to choose a primary care physician affiliated with Loma Linda University Health Care, you may do so only during your open enrollment period, which is determined by your employer, unless you are a new member (such as a new employee) or a current UnitedHealthcare member's newly eligible dependent. Otherwise, you may not transfer to a primary care physician affiliated with this medical group.

Specialists

Generally, for UnitedHealthcare SignatureValue™ members to receive care from a Specialist in network, the member must receive an approved referral from his/her Primary Care Physician. For more information regarding covered services from Specialists, please refer to your Combined Evidence of Coverage and Disclosure Form or contact Customer Service at the number on the back of your ID card.
