**Project Features**

The Miramar College Montgomery Field Instructional Center Project includes the demolition of the existing 6,300 SF hangar and the construction of approximately 8,500 ASF of new space to support expanded aviation workforce training. The renovated facility will include:

- Modern technology
- Climate control
- Advanced training equipment to enhance safety and instructional capabilities
- New site utilities
- Exterior walkways
- Accessible parking and pathways
- Curb and gutter improvements
- Landscaping and signage to ensure full integration with surrounding infrastructure and compliance with accessibility standards
