RESEARCH DEFINITION |

RESEARCH DEFINITION

- CSAC states in the LAEP Handbook - *“Research” is defined by the institution and should be a significant component of any LAEP position in which the employer is a research center or institution operated by a public postsecondary educational institution. Research is not limited to scientific research and can take place outside of an academic discipline. The research should be directed and supervised by faculty, staff or another mentor who will determine the research requirements.*
- Google defines Research as - *the systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions.*
- *Partnership work with faculty, staff, and industry that provides ~~on campus~~ exposure for the student with a commitment to excellence, strengthening and creating tangible impacts on community and student success.*

ADVOCACY

Will it hold us back?

- Wages counting towards future aid eligibility
- Distributed as wages and not stipend
- Covering mandatory benefits
