

# High School Pipeline, 2022-23

## Data Briefing

October 30, 2023

### Context

SDCCD strives to provide educational opportunities for the diverse student population in the San Diego region. One type of students targeted by outreach and support programs like Promise is **First Time Entrants**, or First Time Students who enroll at one of the credit colleges in the year following high school graduation.

This briefing provides context on **the number of First Time Entrants from San Diego Unified School District (SDUSD) high schools**, and **the percent of high school graduates** that these students represent. Also included First Time Entrant data showing:

- The percent of all first-time to college students accounted for by First Time Entrants
- The number from non-SDUSD districts
- First Time Entrant rates by college, including the number and percent of students from one college's service area who enroll at one of the other two credit colleges
- The number and percent of First Time Entrants who participate in Promise
- A high-level analysis of demographic trends

This briefing represents a preliminary analysis of First Time Entrant rates for SDUSD high schools to inform conversations about outreach. Further analysis will follow in subsequent years that considers First Time Entrant rates by major, first-generation status, early college credit completion, and more.

This briefing includes data for students who were First Time Entrants in 2020-21, 2021-22, and 2022-23.

Table 1. Groups included in this briefing

High School Graduation Year	2020	2021	2022
First Time Entrant Year	2020-21	2021-22	2022-23
Count of First Time Entrants	3,381	3,398	3,620

### Definitions

- **Academic Year:** Subsequent Summer, Fall, and Spring terms, including Intersession. For example, Summer 2020, Fall 2020, and Spring 2021 are the 2020-21 academic year.
- **First Time to College:** A student whose first enrollment at a post-secondary institution occurred at San Diego City, Mesa, or Miramar colleges.
- **First Time Entrant:** A student whose first enrollment at a post-secondary institution occurred at San Diego City, Mesa, or Miramar colleges in the year following high school graduation. For example, a student who graduated high school in 2020 and enrolled at San Diego City, Mesa, or Miramar colleges during the 2020-21 academic year.

### Summary

1. **Population Context:** Recent high school graduates – first-time entrants – have accounted for about half of all first-time to college students over the last three years.
2. **First Time Entrant Counts by School District:** There were 3,620 First Time Entrants in 2022-23, 7% more than the prior year. SDUSD public schools accounted for 1,436 of these students (40% of First Time Entrants).

**Key Finding:** SDUSD Public and Charter schools accounted for just under half of First Time Entrants in 2022-23 (46%). Schools from districts outside of the immediate San Diego area accounted for the next largest group of entrants in 2022-23 (850 students, or 23%), followed by Poway Unified (470 students, or 13%) and Sweetwater Union (306, or 8%).

3. **SDUSD First Time Entrant Rate:** About one in five high school seniors enroll at San Diego City, Mesa, or Miramar College in the year following high school graduation. Entrant rates vary widely by high school. Sites geographically near a credit college, such as Mira Mesa and Kearny, show the highest re-enrollment rates.

**Key Finding:** High-enrollment sites with low entrant rates may benefit from more or different outreach services than they currently receive. These sites are listed in Table 5 on page 9. It should be noted that sites such as Morse and Henry likely demonstrate low entrant rates due to geographical proximity to other community college districts.

4. **Entrant Rate by College:** In 2022-23, Entrant rates to each of the credit colleges from their service area high schools ranged between 13% and 20% (City: 13%, Mesa: 18%, Miramar: 20%). Seniors from high schools in each college's service area primarily enroll as Entrants at that college: between 68% and 90% of First Time Entrants enrolled at their service area college.

**Key Finding:** As many as half of entrants from each college's service area also enrolled at one of the other two credit colleges in their first year.

See the end of this briefing for college-specific worksheets about the number of Entrants from each college's service area who enroll at that college.

5. **Promise Participation among First Time Entrants:** Of the 1,434 First Time Entrants in 2022-23, 828 participated in Promise, or 58%. This is an increase from the prior two years (2020-21: 53%, 2021-22: 51%).

**Key Finding:** In 2022-23, more than half of First Time Entrants from 15 of the 22 SDUSD Public high schools participated in Promise in their first year as college students at SDCCD.

6. **First Time Entrants by Gender and Ethnicity:** Nearly half of first-time Entrants in 2022-23 were Latinx (47%), and male students accounted for a slightly larger percent (50%) than female students (48%). Compared to all other students enrolled at the credit colleges, First Time Entrants were more likely to be Latinx (+9%) less likely to be white (-8%), and slightly more likely to be male (+2) than all other students.

## Key Findings and Next Steps

Key Finding	Next Steps
<p>SDUSD Public and Charter schools accounted for just under half of First Time Entrants in 2022-23 (46%). Schools from districts outside of the immediate San Diego area accounted for the next largest group of entrants in 2022-23 (850 students, or 23%), followed by Poway Unified (470 students, or 13%) and Sweetwater Union (306, or 8%).</p>	<p>Outreach to SDUSD schools in the SDCCD service area will remain a priority for each of the colleges. Context about the number of non-SDUSD students who are First Time Entrants is helpful for informing conversations about setting goals and program capacity.</p>
<p>High-enrollment sites with low entrant rates may benefit from more or different outreach services than they currently receive. These sites are listed in Table 5 on page 9. It should be noted that sites such as Morse and Henry likely demonstrate low entrant rates due to geographical proximity to other community college districts.</p>	<p>SDUSD sites are extremely diverse and reasons for low entrant rates vary by site, from geographical proximity to SDCCD or other colleges to rates of enrollment in 4-year universities at each site. Outreach efforts respond, or at least consider, these differences.</p>
<p>As many as half of entrants from each college's service area also enrolled at one of the other two credit colleges in their first year.</p>	<p>As online course offerings facilitate student enrollment at multiple colleges, clarity in degree requirements and course availability across the credit colleges are more important than ever.</p>
<p>In 2022-23, more than half of First Time Entrants from 15 of the 22 SDUSD Public high schools participated in Promise in their first year as college students at SDCCD.</p>	<p>Sites such as Garfield, Kearny, Morse, and Twain may benefit from more targeted or different Promise outreach efforts.</p>

## Metrics

### 1. Population Context: Recent high school graduates – first-time entrants – have accounted for about half of all first-time to college students over the last three years.

The overall number of first-time to college students (which includes those who graduated high school two or more years ago) has grown each of the last three years, from 6,160 in 2020-21 to 7,141 in 2022-23.

Figure 1. First-time Students, Entrants, and non-Entrants

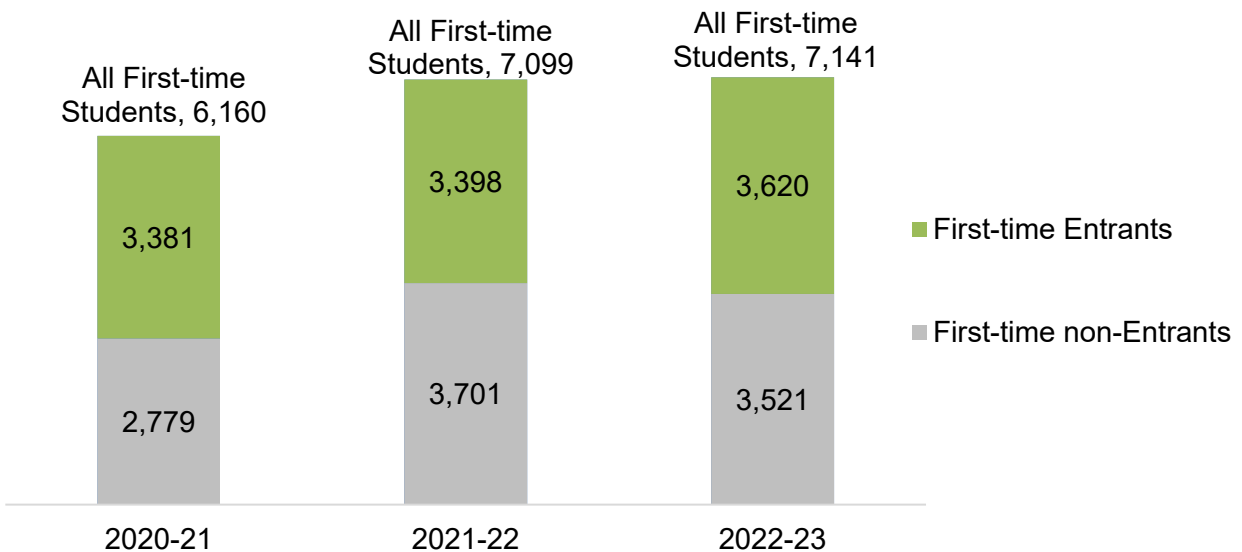

Table 2. First-time Students, Entrants, and non-Entrants

	2020-21	2021-22	2022-23	Diff. 21-22 to 22-23	% Change 21-22 to 22-23
First-time non-Entrants	2,779	3,701	3,521	-180	-5%
First-time Entrants	3,381	3,398	3,620	222	7%
<b>All First-time Students</b>	<b>6,160</b>	<b>7,099</b>	<b>7,141</b>	<b>42</b>	<b>1%</b>
First-time Entrant %	55%	48%	51%	3%	---

Note. 2020-21 First Time entrants excludes three students due to data availability.

**2. First Time Entrant Counts by School District:** There were 3,620 First Time Entrants in 2022-23, 7% more than the prior year. SDUSD public schools accounted for 1,436 of these students (40% of First Time Entrants).

SDUSD Public and Charter schools accounted for just under half of First Time Entrants in 2022-23 (46%). Schools from districts outside of the immediate San Diego area accounted for the next largest group of entrants in 2022-23 (850 students, or 23%), followed by Poway Unified (470 students, or 13%) and Sweetwater Union (306, or 8%).

First Time Entrants are first-time to college students who enrolled at San Diego City, Mesa, or Miramar Colleges within one year of high school graduation.

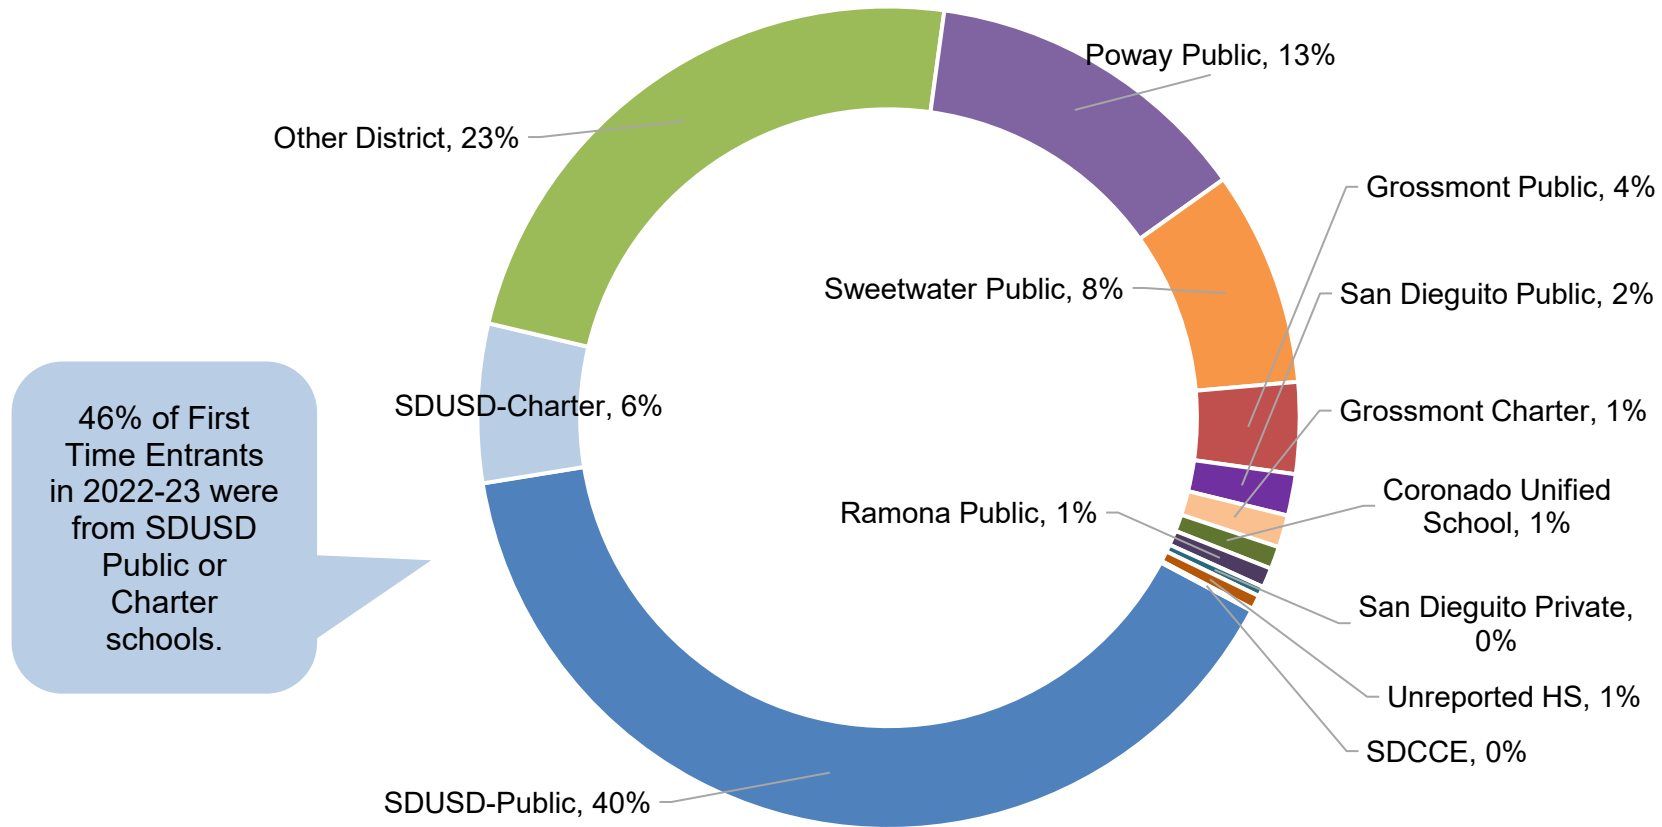

See Figure 2 on the next page for 2022-23 percentages by district.

Table 3. First Time Entrant Counts by School District

		2020-21 Entrants	2021-22 Entrants	2022-23 Entrants	Diff. 21-22 to 22-23	% Change 21-22 to 22-23
SDCCD and non-SDCCD		3,381	3,398	3,620	222	7%
SDCCD Feeder Schools	<b>Total</b>	<b>1,371</b>	<b>1,550</b>	<b>1,662</b>	<b>112</b>	<b>7%</b>
	SDUSD-Public	1,156	1,314	1,436	122	9%

SDCCE	3	2	3	1	50%	

Note. SDUSD-Charter/Comm. includes charter schools such as High Tech High and community high schools such as King-Chavez Community High School.

Figure 2. Percent of First Time Entrants by District, First Time Entrants 2022-23

**3. SDUSD First Time Entrant Rate: About one in five high school seniors enroll at San Diego City, Mesa, or Miramar College in the year following high school graduation.**

Data regarding the number of high school seniors at SDUSD schools is from the [California Department of Education Dataquest](#).

Entrant rates reported in this briefing are significantly lower than previously reported: the most recent High School Pipeline report (December 2019) showed roughly 1 in 3 SDUSD high school graduates enrolling at San Diego City, Mesa, or Miramar College in the year following high school graduation. Differences in reported entrant rates are likely due to:

- Previous reporting likely included dually/concurrently enrolled students as first-time to college students (incorrectly increasing numerator of historical data)
- Current reporting is challenged by incomplete graduation year data (incorrectly lowering numerator of new data). The impact of this challenge is likely minimal: there are 196 SDUSD students with unreported high school graduation data that could be part of the cohorts of 4,488 Entrants across the last three years (shown in Table 4 below), or about 4%.

Gaps in application data from Campus Solutions are supplemented by data obtained from SDUSD.

Table 4. Overall SDUSD Entrant Counts and Rates

	HS Grad 2020			HS Grad 2021			HS Grad 2022		
	Entrants	HS Seniors	Entrant Percent	Entrants	HS Seniors	Entrant Percent	Entrants	HS Seniors	Entrant Percent
SDUSD-Public	1,156	6,872	17%	1,314	6,982	19%	1,436	6,789	21%
SDUSD-Charter/Comm.	215	1,143	19%	236	1,180	20%	226	1,101	21%
<b>Total</b>	<b>1,371</b>	<b>8,015</b>	<b>17%</b>	<b>1,550</b>	<b>8,162</b>	<b>19%</b>	<b>1,662</b>	<b>7,890</b>	<b>21%</b>

Figure 3. High Schools with Highest Entrant Rate

The SDUSD high schools from which the highest **percent** of 2022 seniors enrolled at San Diego City, Mesa, or Miramar Colleges within one year of graduation were **Kearny (38%), Mira Mesa (33%), Clairemont (32%), and University City (30%)**.

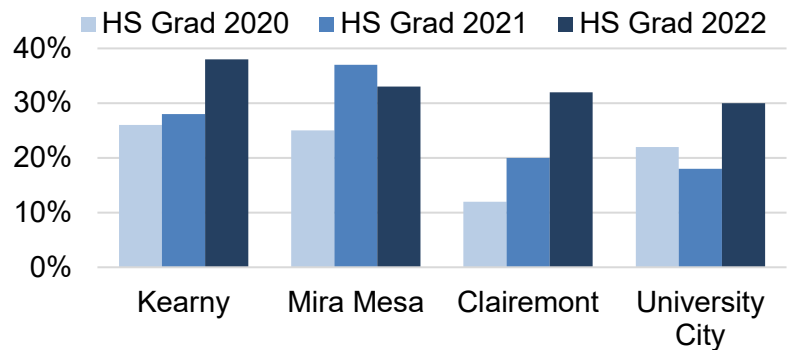

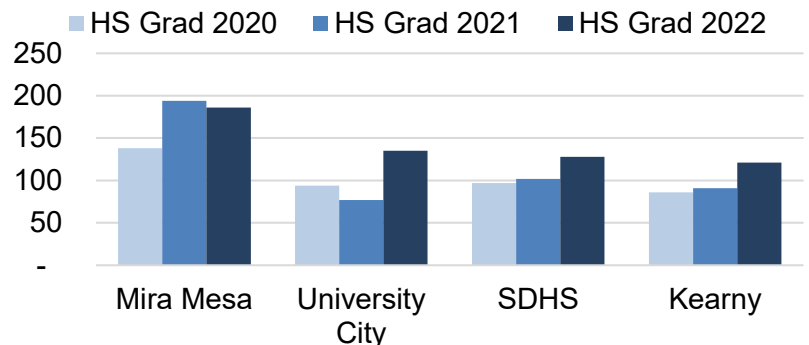

Figure 4. High Schools with Highest Entrant Count

The SDUSD high schools from which the highest **count** of 2022 seniors enrolled at San Diego City, Mesa, or Miramar Colleges within one year of graduation were **Mira Mesa (186), University City (135), SDHS (128), and Kearny (121)**.

Entrant rates vary widely by high school. Sites geographically near a credit college, such as Mira Mesa and Kearny, show the highest re-enrollment rates. These sites also have relatively high enrollment (564 and 320 seniors in 2022, respectively), leading to a high number of First Time Entrants from those sites.

High enrollment sites with low entrant rates may benefit from more or different outreach services than they currently receive. These sites are listed in Table 5.

Each SDUSD school site represents unique opportunities and challenges for Outreach. For example, sites such as Morse and Henry likely demonstrate low entrant rates due to geographical proximity to other community college districts.

In Table 6 below, high schools that yield large numbers of Entrants are highlighted in green. The sites with the 10 highest entrant rates each year are highlighted in blue.

Table 5. High Schools with Entrant Rates under 20%, 2022

High School	Entrant Rate	H.S. Seniors 2022
Crawford	17%	246
Garfield	9%	176
Henry	9%	581
La Jolla	11%	333

Mt. Everest	3	6	9	16%	15%	27%	33
Point Loma	84	90	75	18%	21%	17%	<b>439</b>
Scripps Ranch	90	104	113	18%	19%	24%	<b>469</b>
SD MET	5	7	0	14%	18%	0%	35
SDHS	97	102	128	18%	17%	22%	<b>584</b>
SDSCPA	27	33	38	15%	20%	19%	200
Twain	15	17	19	6%	9%	12%	159
University City	94	77	135	22%	18%	30%	<b>449</b>

**4. Entrant Rate by College:** In 2022-23, Entrant rates to each of the credit colleges from their service area high schools ranged between 13% and 20% (City: 13%, Mesa: 18%, Miramar: 20%).

Table 7 below shows entrant rates by college. “Entrants” indicates the number of students from each college’s feeder high school that enrolled at that college as First Time students in the year following high school graduation. “Seniors” indicates the numbers of seniors from those high schools (includes SDUSD Public schools only).

Note that the Total Entrant Rate is higher than the Entrant Rate for each college. This is because seniors from one college’s service area may enroll at one of the other two credit colleges.

For more information about why Entrant Rates in this briefing differ from previous reports, see page 7.

Table 7. Entrant Rates by College from Feeder Schools (includes service area high schools and entrants only)

	Entrants in 2020-21			Entrants in 2021			Entrants in 2022		
	Entrants	Seniors	Entrant %	Entrants	Seniors	Entrant %	Entrants	Seniors	Entrant %
City	244	2,420	10%	264	2,510	11%	321	2,446	13%
Mesa	381	2,652	14%	440	2,661	17%	454	2,566	18%
Miramar	247	1,800	14%	330	1,811	18%	349	1,777	20%
<b>Total</b>	<b>1,154</b>	<b>6,872</b>	<b>17%</b>	<b>1,302</b>	<b>6,982</b>	<b>19%</b>	<b>1,434</b>	<b>6,789</b>	<b>21%</b>

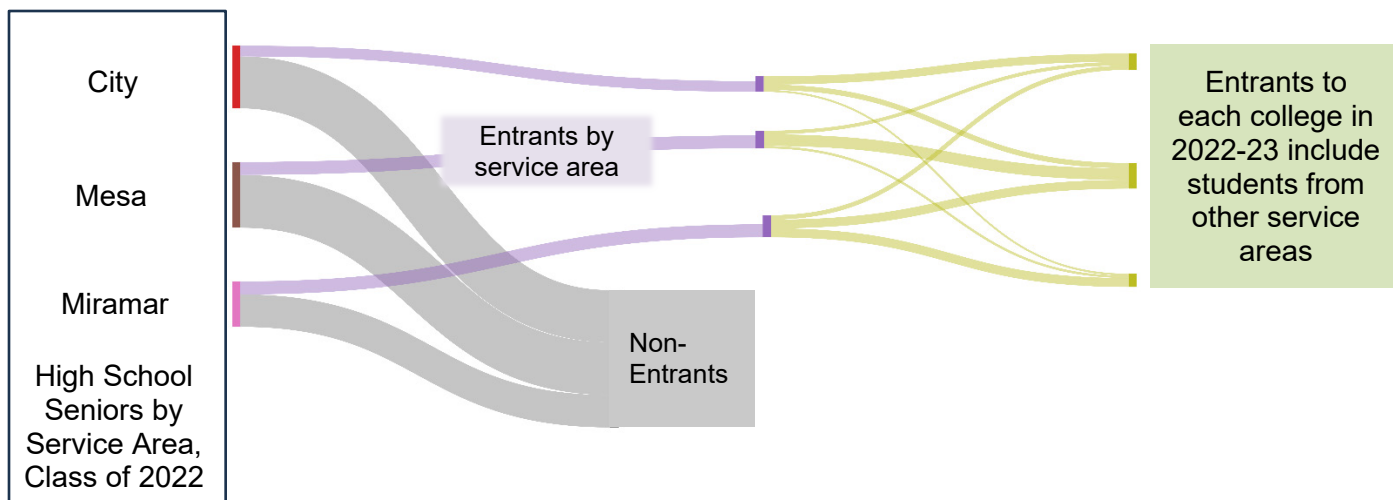

Note 1. This table includes only Entrants and Seniors from each college’s service area. Excludes Entrants who enrolled at each college from high schools in the other colleges’ service areas.

Note 2. This table excludes the following numbers of students who indicated they were from “San Diego Adult” school on CCCApply. 2020-21: 2, 2021-22: 12, 2022-23: 2.

Seniors from high schools in each college’s service area primarily enroll as Entrants at that college: between 68% and 90% of First Time Entrants enrolled at their service area college. However, there are many Entrants who enroll at one or both of the other two colleges in the same academic year.

**See the next three pages for more information on the number of Entrants who enroll at each college from other colleges’ service areas.** Figure 5 below is a representation of the SDCCD high school pipeline; from left to right, it shows the number of seniors at SDUSD public schools in each college’s service area, the number who enroll at City Mesa, or Miramar, and the number who enroll at each college. See Figure 6 on page 11 for a more detailed version of this figure.

Figure 5. 2022-23 High School Pipeline Overview

## High School Pipeline, 2022-23

Table 8 below shows the number of Entrants who enrolled at each college by service area.

- Each column shows the college at which Entrants enrolled.
- Each row shows the service area to which Entrants' high schools belonged.
- The yellow-highlighted cells indicate the number of Entrants from each college's service area **who enrolled at that college**.

For example, there were 1,434 Entrants from the high school class of 2022. Of these, 418 entrants were from high schools in the City College service area, 505 were from the Mesa College service area, and 511 were from the Miramar College service area. Of the 1,434 Entrants, 634 enrolled at City, 1,006 enrolled at Mesa, and 521 enrolled at Miramar.

*Table 8. Entrants by Service Area and College Enrolled, Counts*

		Enrolled at			
		City	Mesa	Miramar	Unduplicated SDUSD Entrants
HS Grad 2020	City Service Area	244	187	74	332
	Mesa Service Area	161	381	97	449
	Miramar Service Area	135	265	247	373
	<i>Total SDUSD Public</i>	<i>540</i>	<i>833</i>	<i>418</i>	<b>1,154</b>
HS Grad 2021	City Service Area	264	206	89	354
	Mesa Service Area	177	440	111	505
	Miramar Service Area	161	279	330	443
	<i>Total SDUSD Public</i>	<i>602</i>	<i>925</i>	<i>530</i>	<b>1,302</b>
HS Grad 2022	City Service Area	321	208	77	418
	Mesa Service Area	140	454	95	505
	Miramar Service Area	173	344	349	511
	<i>Total SDUSD Public</i>	<i>634</i>	<i>1,006</i>	<i>521</i>	<b>1,434</b>

*Note 1. The sum of Enrollees at City, Mesa, and Miramar exceeds the total Unduplicated SDUSD Entrants because students enroll at multiple colleges.*

*Note 2. Excludes entrants from non-SDUSD Public and Charter schools.*

For the high school class of 2022, the bullets at right show the percent of Entrants from high schools in each colleges' service areas who enrolled at that college.

**As many as half of entrants from each college's service area also enrolled at one of the other two credit colleges in their first year.**

See Figure 6 on the next page for an annotated visualization of this data, Table 12 on page 12 for more information, and the end of this report for college-specific worksheets.

### **% of Entrants who enrolled at their Service Area College, Entrants 2022-23**

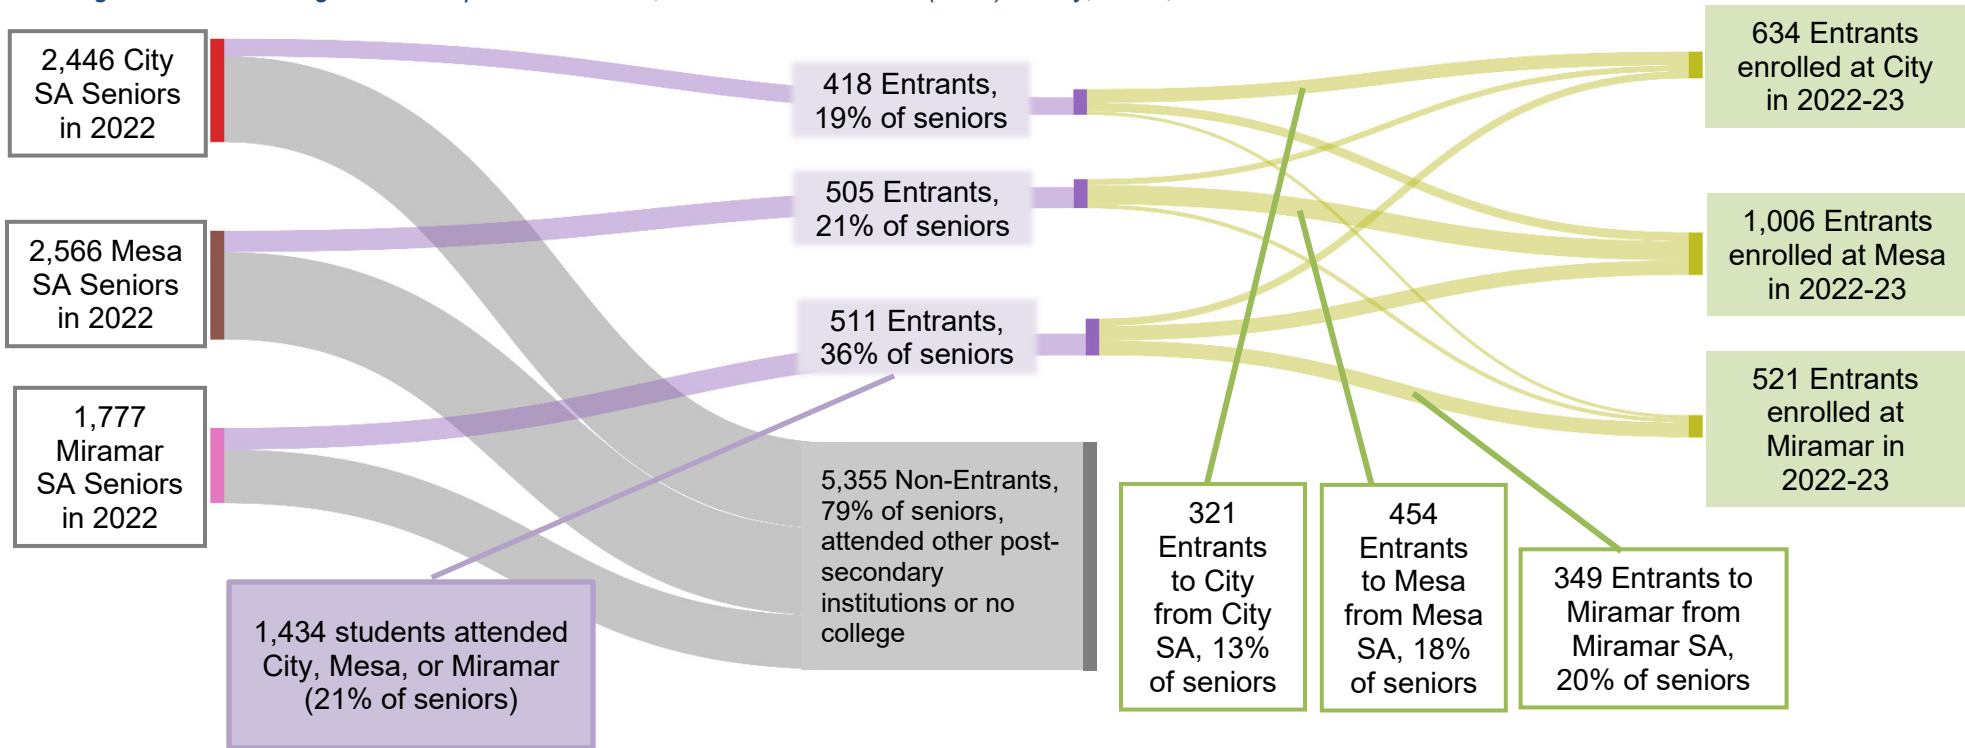

- City College: 77%
- Mesa College: 90%
- Miramar College: 68%

Figure 6 below shows the high school pipeline of high school seniors in City, Mesa, and Miramar Service Areas.

- The number of seniors in each college’s service area is shown at the left of the figure (City: 2,446, Mesa: 2,566, Miramar: 1,777).
- The number of seniors from each college’s service area who enroll at one of the credit colleges in the year after high school graduation is shown in the middle along the purple path (418 from City Service Area, 505 from Mesa Service Area, 866 from Miramar Service Area).
- The number of students who enroll at each college within one year of high school graduation is shown at the right of the figure (City: 634, Mesa: 1,006, Miramar: 521).

Figure 5 excludes charter schools such as High Tech High from each college’s service area.

Figure 6. 2022-23 High School Pipeline Overview, Service Area Seniors (2022) to City, Mesa, and Miramar Entrants 2022-23

\*SA = Service Area

Table 9. Entrants by Service Area and College Enrolled, Percents

		Enrolled at			
		City	Mesa	Miramar	Unduplicated SDUSD Entrants
HS Grad 2020	City Service Area	73%	56%	22%	332
	Mesa Service Area	36%	85%	22%	449
	Miramar Service Area	36%	71%	66%	373
	<i>Total SDUSD Public</i>	47%	72%	36%	1,154
HS Grad 2021	City Service Area	75%	58%	25%	354
	Mesa Service Area	35%	87%	22%	505
	Miramar Service Area	36%	63%	74%	443
	<i>Total SDUSD Public</i>	46%	71%	41%	1,302
HS Grad 2022	City Service Area	77%	50%	18%	418
	Mesa Service Area	28%	90%	19%	505
	Miramar Service Area	34%	67%	68%	511
	<i>Total SDUSD Public</i>	44%	70%	36%	1,434

Table 9 shows the percent of Entrants from each service area who enrolled at each college in their first year. For example, for students who graduated high school in 2022:

- 77% of the 418 SDUSD Entrants from high schools in the City College Service Area enrolled at City College (321 students). 50% of the 418 SDUSD Entrants from the City College Service Area enrolled at Mesa (208 students), and 18% enrolled at Miramar (77 students).
- 90% of the 505 SDUSD Entrants from high schools in the Mesa College Service Area enrolled at Mesa College (454 students). 28% of the 505 SDUSD Entrants from the Mesa College Service Area enrolled at City (140 students), and 19% enrolled at Miramar (95 students).
- 68% of the 511 SDUSD Entrants from high schools in the Miramar College Service Area enrolled at Miramar College (349 students). 34% of the 511 SDUSD Entrants from the Miramar College Service Area enrolled at City (173 students), and 67% enrolled at Mesa (344 students).

The sum of the percents of students who enroll at each college exceeds 100% because students enroll at multiple colleges. For example, for Entrants who graduated high school in 2022, 44%+70%+36% = 150% - this indicates that about half of this group enrolled at multiple colleges.

**5. Promise Participation among First Time Entrants: Of the 1,434 First Time Entrants from SDUSD Public Schools in 2022-23, 828 participated in Promise, or 58%. This is an increase from the prior two years (2020-21: 53%, 2021-22: 51%).**

Note that Table 10 below includes Promise students who were First Time Entrants from SDUSD Public schools – meaning they were first-time to college students in the year following high school graduation. A number of students enter Promise as non-first time students, first-time students who graduated high school several years ago, First Time Entrants from outside the region, and degree holders.

*Table 10. Of SDUSD First Time Entrants, Number and Percent who Participated in Promise*

	Entrants from High School Graduation Year					
	2020		2021		2022	
Promise	615	53%	670	51%	828	58%
Not Promise	539	47%	632	49%	606	42%
<b>Total Entrants</b>	<b>1,154</b>	<b>100%</b>	<b>1,302</b>	<b>100%</b>	<b>1,434</b>	<b>100%</b>

In 2022-23, more than half of First Time Entrants from 15 of the 22 SDUSD Public high schools participated in Promise in their first year as college students at SDCCD. Sites where fewer than half of First Time Entrants participated in Promise and where students may benefit from extended or differentiated Promise outreach are listed in Table 11 below. See Table 12 on the next page for Promise participation rates among Entrants from all high schools.

*Table 11. Schools that may benefit from extended/differentiated Promise Outreach; sites with low Promise participation in 2022-23*

Note. There were no Entrants from SD MET in 2022-23.

6. **First Time Entrants by Gender and Ethnicity:** Nearly half of first-time Entrants in 2022-23 were Latinx (47%), and male students account for a slightly larger percent (50%) than female students (48%).

Compared to all other students enrolled at the credit colleges, First Time Entrants **were more likely to be Latinx (+9%)** and **less likely to be white (-8%)**. First Time Entrants were also slightly **more likely to be male (+2)** than all other students.

Differences between First Time Entrants and all other students across the credit colleges were reflected at City and Mesa Colleges. At Miramar College, gender differences were not significant. Entrants to Miramar College were as likely to be Latinx as the rest of Miramar College students, but more likely to be Asian (+6%) and less likely to be white (-8%).

Significant differences by ethnicity, gender, and college are summarized in Table 13 at right. See Tables 15 and 16 in the appendix for representation by ethnicity and gender of First Time Entrants compared to All Other Students across the credit colleges.

City College Entrants from **Service Area Feeder Schools**  
**High School Pipeline** *Supplemental Worksheet, 2022-23*

Entrants are students who enroll at City, Mesa, or Miramar Colleges in the year following high school graduation. The table below shows Entrants from **SDUSD Public** high schools.

Entrants are counted once per college at which they enroll in their first year of college, and once in the Total row. The sum of the college rows exceeds the Total row because students enroll at more than one college in the same academic year. The larger the difference between the sum of the college rows and the Total row, the more students enrolled at multiple colleges. The Entrant Rate is the percent of seniors from that high school that enrolled at the indicated college. Sites with relatively high entrant rates are indicated with green cell highlights, and sites with low rates are indicated with red cell highlights. Note that this table excludes entrants from high schools outside of the City College Service Area who enrolled at City College in their first year.

**Miramar College Entrants from Service Area Feeder Schools**  
*High School Pipeline Supplemental Worksheet, 2022-23*

Entrants are students who enroll at City, Mesa, or Miramar Colleges in the year following high school graduation. The table below shows Entrants from **SDUSD Public** high schools.

Entrants are counted once per college at which they enroll in their first year of college, and once in the Total row. The sum of the college rows exceeds the Total row because students enroll at more than one college in the same academic year. The larger the difference between the sum of the college rows and the Total row, the more students enrolled at multiple colleges. The Entrant Rate is the percent of seniors from that high school that enrolled at the indicated college. Sites with relatively high entrant rates are indicated with green cell highlights, and sites with low rates are indicated with red cell highlights. Note that this table excludes entrants from high schools outside of the Miramar College Service Area who enrolled at Miramar College in their first year.

Miramar College Service Area High Schools

High School	Enrolled At	HS Grad. 2020			HS Grad. 2021			HS Grad. 2022		
		Entrants	HS Seniors	Entrant Rate	Entrants	HS Seniors	Entrant Rate	Entrants	HS Seniors	Entrant Rate
Canyon Hills	City	24	321	7%	28	305	9%	23	295	8%
