

# 2020-21 SDCCE Launchboard Summary College of Continuing Education May 30, 2023

## Context

This briefing contains a summary of CTE data for the College of Continuing Education students from the California Community Colleges Chancellor’s Office (CCCCO) CAL-PASS Plus Launchboard (data in dashboard under “San Diego Adult”). Data is from 2020-21 (the most recent available data) unless otherwise noted.

The [Community College Pipeline](#) dashboard is part of the CCCCOC Launchboard suite of reporting tools. This dashboard shows data collected from California community colleges’ MIS submissions. By selecting a district or college, users can show data for students enrolled CTE and those not enrolled in CTE courses. Further disaggregations by those enrolled in CTE courses are available by CTE Sector and TOP code. Data is generally available with a two-year reporting lag; i.e., the most recent available data as of the production of this report (5/30/23) is for the 2020-21 academic year.

This summary compares outcomes for SDCCE students enrolled in CTE courses to those not enrolled in CTE courses.

**Demographic data** for these two groups is compared across the following disaggregations:

Gender	Age Group	Educational Goal	First Generation	EOPS	Economically Disadvantaged
Ethnicity	Previous Education	Full-time status	Former Foster Youth	Veteran/Military	First-time

**Outcomes data** is compared across the following metrics:

Success Rates	Retention Rates ( <i>rate of students completing courses</i> )	Retained Fall-Spring, same college ( <i>enrolled in subsequent Fall and Spring terms at the same college</i> )
Transfer-level Coursework ( <i>completion of transfer-level Math and English</i> )	Employment	

This data is intended to inform conversations about the CTE student population and program outcomes. It should be noted that SDCCD data for the 2020-21 academic year reflects coursework taken nearly entirely online – the district transitioned nearly all instruction online for that academic year. Further student- and course-level data is available in the 2020-21 CTE Biennial Briefing ([Part 1](#) and [Part 2](#)). An updated version of that report will be available in August 2023.

Table 1. CCCCCO Launchboard Summary, SDCCE 2020-21.

By Demographic Groups (Adult)					
Metric	Observation	CTE		Non-CTE	
Gender	Female representation higher among both CTE and non-CTE.	Male: 38%	Female: 62%	Male: 27%	Female: 73%
Ethnicity	Latinx students are largest group of both CTE and non-CTE.	Af.Am: 7%	Asian: 13%	Af.Am: 6%	Asian: 16%
		Filipino: 6%	Latinx: 37%	Filipino: 2%	Latinx: 34%
		White: 27%	Mult. Eth: 4%	White: 30%	Mult. Eth: 2%
Age Group	Non-CTE population is slightly older.	Under 25: 10%	25+: 90%	Under 25: 8%	25+: 91%
Previous Education	CTE population more likely to have previously <b>received a community college award.</b>	Ever Attended Another College in Same Pathway: 11%		Ever Attended Another College in Same Pathway: 12%	
		Previously Received CC Award: 37%		Previously Received CC Award: 24%	
Ed Goal	CTE population less likely to be Adult Ed/ESL, and more likely to be Undecided/Other.	Adult Ed/ESL: 7%	Short-Term Career: 2%	Adult Ed/ESL: 36%	Short-Term Career: 1%
		Degree/Transfer: N/A		Degree/Transfer: N/A	
		Undec./Other: 91%		Undecided/Other: 63%	
Full Time Unit Load	Not applicable.	N/A		N/A	
First Generation	CTE more likely to be first generation.	13%		5%	
Former Foster Youth	Similar rates	2%		1%	
EOPS	CTE slightly more likely to receive EOPS.	5%		2%	
Veteran/Military	Similar rates	2%		1%	
Economically Disadvantaged	CTE Population more likely to be disadvantaged.	Perkins: 67%	SCFF: 24%	Perkins: 33%	SCFF: 9%
First-time	Lower first-time rates for CTE population.	20%		24%	

Figure 1. % Students Became Employed after Exiting College, SDCCE

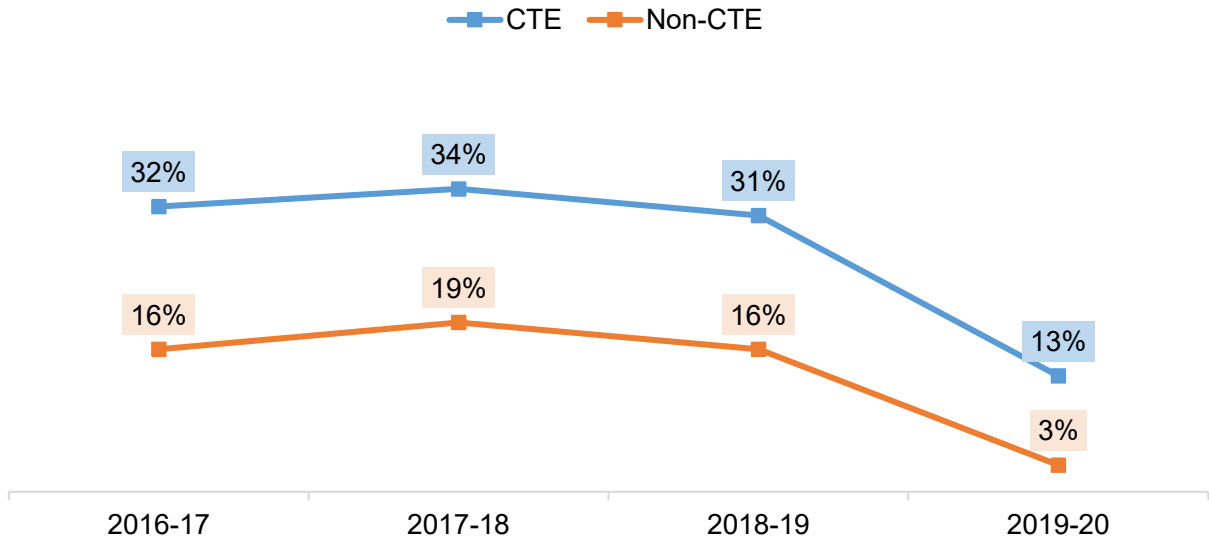

Table 1. Employment Outcomes for SDCCE CTE and non-CTE students

		2016-17	2017-18	2018-19	2019-20
CTE	Employed	32%	34%	31%	13%
	Employed in field of study	n/a	66%	63%	n/a
	Found Job within 6 months (out of those who found a job)	n/a	85%	86%	n/a
	Full time work	n/a	75%	79%	n/a
Non-CTE	Employed	16%	19%	16%	3%
	Employed in field of study	n/a	63%	67%	n/a
	Found Job within 6 months (out of those who found a job)	n/a	50%	100%	n/a
	Full time work	n/a	75%	73%	n/a

Note 1. "Employed" uses 2019-20 data; proportion who were unemployed and became employed after exiting college.

Note 2. Detailed Employment data lags several years, so for many elements ("Employed in field of study") most recent available data is 2018-19.
