

Regional Consortium Program Recommendations November 2022 Update

San Diego City College

Two (2) programs submitted; one modification and one new program. The modification was endorsed by the Deans Council. The new program was not endorsed. See requested action noted below. Based on submitted labor market information, both programs received cautionary comments by the Centers of Excellence (COE). COE comments are noted below.

- **Nutrition and Community Wellness**, CoA, New
 - COE Comments: San Diego City College submitted the appropriate LMI from the COE. The COE recommends proceeding with caution when developing a new program, but supports a program modification because 1) there is a supply gap; 2) there is a high number of annual job openings; but 3) entry-level wages are below the living wage for some occupations. The region should note that employers typically only require a high school diploma or equivalent as the minimum requirement for Nutrition and Community Wellness occupations.
 - Requested Action: Request for TOP Code to be re-assessed and pathway alignment reconsidered.
- **Office Administration Assistant**, CoA, Modification
 - COE Comments: San Diego City College submitted the appropriate LMI from the COE. The COE recommends proceeding with caution when developing a new program, but supports a program modification because 1) there is a supply gap; 2) there is a high number of annual job openings; but 3) entry-level wages are below the living wage. The region should note that employers typically only require a high school diploma or equivalent as the minimum requirement for Office Assistant occupations.

San Diego Mesa College

No programs submitted for regional recommendation.

San Diego Miramar College

No programs submitted for regional recommendation.
