

# SG21 Subcategory Update – Spring 2024 Section and Student Coding

*Extract Data as of July 2<sup>nd</sup>, 2024*

## Context

This data extract update provides section and student-level coding from Summer 2022 until the present and allows each college to see SG21 subcategory coding efforts. It allows institutions to see the volume of students that had an SG21 experience over time, what type of SG21 subcategory experiences are being coded through enrollments and expected SG21 counts in MIS.

The counts are unduplicated to represent sections and/or students with at least one SG21 subcategory experience. Spring 2024 data includes section-level subcategories being coded at each institution. The percent of students that had at least one SG21 experience out of the student population that term as well as demographic information (age, ethnicity, gender) compared to student demographics from the Office of Institutional Effectiveness and Research's Student Profiles dashboard<sup>1</sup> is also included. Internal MIS data expectations and MIS data available from [CCCCO's Datamart](#) are also provided.

The data is organized by the following eight questions followed by an appendix. Please click on any line to go to that place in the document.

## 6. Which Subcategories were coded at the section level for Spring 2024?

Below are highlights for each college from Spring 2024 section coding. Please look at the appendix for section and enrollment counts by SG21 subcategory from Spring 2019 to Summer 2024 for each college.

**City College:** The most coded subcategory for sections and enrollment was Career Readiness (C5). For Spring 2024, twenty sub-categories were coded, missing Internships which are A5 (unpaid) and A6 (Paid). [Appendix: City College \(Table 9\)](#)

**Mesa College:** The most coded subcategories by sections and enrollment were Career Readiness (C5) and Simulated Workplace Experience (B5). For Spring 2024, twenty-one subcategories were coded, missing only A1 (Apprenticeships). [Appendix: Mesa College \(Table 10\)](#)

**Miramar College:** The most coded subcategory by sections and enrollment was Career Readiness (C5) and Simulated Workplace Experience (B5). For Spring 2024, nineteen subcategories were coded, missing A1 (Apprenticeships), A5 (Internships – unpaid), and A6 (Internships – paid) in Spring. [Appendix: Miramar College \(Table 11\)](#)

**College of Continuing Education:** There were three coded subcategories in Spring 2024, in order of most code by section and enrollment, they were Career Readiness (C5), Mock Interviews (C4), and Capstone Projects (A2). [Appendix: College of Continuing Education \(Table 12\)](#)

## 7. What are our total MIS counts by SG21 category?

Important facts about [MIS reporting for SG21](#):

- MIS reporting is unduplicated by College. If the student is identified as participating in more than one type of work-based learning during the reporting term, report the first applicable code (A through C). *Examples: If a student participates in a WBL activity within the A, B, and C categories, they are only recorded as A. If a student participates in a WBL activity within the B, and C categories, they are only recorded as B. Table 7 below shows student counts applying MIS hierarchy logic. Only A, B, or C are shown.*
- MIS Code Definitions:
  - **A** - Student participated in work-based learning preparing the student for employment in a specific range of occupations, such as internships, work experience, and capstone projects
  - **B** - Student participated in work-based learning allowing the student to apply learning through practical experience and interaction with professionals from industry and the community outside of school, such as job shadows, service learning, class projects or challenges, and mentorships
  - **C** - Student participated in work-based learning allowing the student to build awareness of the variety of careers available, begin identifying areas of interest, and explore career options, such as guest speakers, company tours, field trips, career fairs, and mock interviews
  - **N** – Student did not participate in Work-Based Learning
  - **X** – Unknown / Unreported
