

## Data Engagement

### 2022-23 Focus Areas:

- 1) Support data informed decision making
  - Tie data engagement to equity goals and partnership activities
    - i. *What data do we need/want to help ensure our joint partnership activities are grounded in equity and informed by data?*
- 2) Share existing reports and research
  - Committee members provide insight into data, reports, and how they are used to inform action / Create space on agendas for people to share insight into programs, services, and customers based on data and reporting
    - *What dashboards or existing reports do SDWP, SDWP contractors, and SDCCD (districtwide and college specific) have that might be good to share (one-time or regularly) with committee members?*
- 3) **Increase understanding and insight into shared customers/students**
  - Formalize data exchange and refine exchange process
  - Define shared customer/student
    - *What do we want to know and how will we use this information?*

### Updates:

- Data Sharing MOU established summer 2022
- Data exchange for required Perkins reporting refined; schedules set
- Shared Customer/Student definition refined - focused on Workforce Partnership WIOA Title 1 customers with one or more enrollments at an SDCCD institution

### **November 2022 Committee Meeting**

Shared Customers/Students with one or more enrollments at an SDCCD institution between July 1, 2021 and June 30, 2022.

### **Dashboard components:**

- Student Demographics
- Workforce Partnership Programs/Services Provided
- Job Placements and Wages

### **Discussion:**

- Questions and Observations
- What does this data tell us?
- How might we use this information to improve our programs and services? To inform our partnership efforts?
- What is one key take-away?
